RULES AND REGULATIONS

FOR THE

Machine and Press Department

OF THE

Glass Bottle Blowers' Association

For the Blast of 1912-1913.

SECTION 1. We shall work six days per week on day turn, and five nights per week on night turn, making an average of five and one-half days per week.

When working three shifts, work shall begin not earlier than 7 A. M. Monday. Actual working time to be seven and one-half hours per day, with one-half hour for dinner. Work to cease not later than 4 P. M. Saturday. Second and third shifts shall work seven and one-half hours also.

SEC. 2. Nine hours shall constitute a day's work, except on Saturday, when eight hours shall constitute a day's work. The starting and quitting time shall be left optional to the different Branches. Shops shall be considered started when filling up moulds.

SEC. 3. There shall be no Saturday night work.

SEC. 4. When a machine is not in perfect working order, the presser is to report the same promptly to the factory manager, and if the machine is not put in

proper working order within sixty minutes after such notification, the factory manager shall notify the shop to work the machine day work from the expiration of the hour, or lay off until the next regular time for starting work, said regular time for starting work to be the next half day. In no case shall more than one hour be taken in nine; men must come back for second turn.

SEC. 5. "Day Work" signifies that journeymen pressers and gatherers shall each receive at the rate of $4.37½ per day, but where an apprentice is employed as gatherer, the presser shall receive at the rate of $5.00 per day, but in no case shall the hour be deducted as per Section 4 on a day—work job.

SEC. 6. The wages of each machine shop shall be equally divided between the presser and the gatherer, the amount per hundred shall be the list price plus 75%. Where but one person is employed on a machine, he shall receive net list price; also where an apprentice gatherer is employed the presser shall receive net list price.

SEC. 7 Journeymen pressers and gatherers are to report bad glass, faulty machines, moulds and tools to the factory foreman as soon as discovered.

SEC. 8. When new ware or new machines are brought into a factory, and they have been worked long enough to be in good working order, it shall be the duty of the manager and price list committee to arrange wages and put the machine or press on piece work.

SEC. 9. Fruit jars, or any other class of ware where prices have been set for piece work, with open and shut ring, and then a closed or screw off ring is sub-

stituted, said closed or screw off ring shall pay day work until prices have been set on same.

SEC. 10. All wares not specified in the list shall be rated at the same price and subject to the same rules in regard to shape, weight, capacity, height and opening, as those specified in the list which they most resemble.

SEC. 11. All necessary facilities shall be furnished by the firm within sixty minutes after notification. Failing to do this at the expiration of the said sixty minutes, the manager shall instruct the shop to work turn work, or lay off until the next regular time for starting work, said regular time for starting work to be the next half day.

SEC. 12. All members shall be compelled to receive their earnings in full in cash every two weeks, and not more than one week's earnings shall remain unpaid when this payment is made.

SEC. 13. Each firm shall make a cash settlement within two weeks after the fire goes out.

SEC. 14. We will allow one apprentice to every ten and three-fifths (3/5) of ten journeymen steadily employed by one firm. This rule shall not be so construed as to debar any firm from taking one apprentice who shall have six journeymen at work.

SEC. 15. No one shall be considered an apprentice unless he be given a place to gather, but it is understood that apprentices are allowed to gather for an automatic machine at 10% less than presser's net wages. or at the rate of $5.00 per day for day work less 10%.

SEC. 16. Apprenticees shall be required to serve three

consecutive years to the firm at 10% less than net list price, said net list price being 25% less than pressers' net list price, or day work at the rate of $3.75 per day less 10%, said 10% to be the property of the firm. No loss of time to be charged against the apprentice, unless the time so lost can be reasonabbly attributed to said apprentice.

SEC. 17. Firms who, from any cause, reduce the number of their journeymen, must also reduce the number of their apprentices, in the proportion to the journeymen employed at the time of reducing their working force, so that they at all timese shall be within the requirements of the law.

Example: If the proportion was one (1) apprentice to three (3) journeymen before reducing their working force, the reduction would be one (1) apprentice to three (3) journeymen.

SEC. 18. Firms starting their factories not later than March 1, 1913, shall be allowed to take their apprentices at any time during the blast, but their quota shall be based upon the number of journeymen in their employ not later than March 1, 1913. Firms or furnaces starting after that date, shall not be allowed to take any.

SEC. 19. If from any cause, an apprentice leaves the trade, he cannot be duplicated, but should he die during the first year of his apprenticeship, the firm may duplicate him during that season only.

SEC. 20. When an apprentice is put on a shop in the machine department, the presser shall receive day work for the first week.

SEC 21. When a member is required to cut off his glass with foot power, or gather for an automatic machine that requires no presser, said member shall receive the net pressing list, as printed in the machine price-list.

SEC. 22. When three journeymen are employed on a shop, the wages shall be divided equally.

SEC. 23. When an automatic cut-off is put on a machine employing one or more gatherers, until a price is mutually agreed upon between workmen and employer, the employer shall pay $5.00 per day each.

SEC. 24. Any member holding a regular place, and desiring to quit work, must give notice to the manufacturer, and then work five (5) consecutive days afterward in his regular place. Manufacturers desiring to discharge members must give them the same notice with the same rights. **The member or firm giving or receiving such notice shall immediately notify the Factory Committee of the same,** and under no consideration shall a card be granted, or a settlement made during the season unless this has been fully complied with. This rule shall not be so construed as to prevent the manufacturer from discharging a member on sight for drunkenness or the violation of this rule.

SEC. 25. Pressers are allowed the privilege of changing off with gatherers, in order to teach them how to press and become acquainted witth that line of work; except in the case of apprentices who have served less than eighteen (18) months.

SEC. 26. The following named holidays shall be observed in the United States: Labor Day and night,

Thanksgiving Day and night, Christmas Eve, day and night; Decoration Day and night; Fourth of July eve, day and night. In Canada: Victoria Day and night; or the day set apart when any of the above named holidays fall on Sunday.

SEC. 27. Members having their ware condemned must have it set aside for inspection, and it must be examined by the member on the same day after which it must be broken down or accounted for.

SEC. 28. Members shall not wait longer than one and one-half hours on bad glass. It shall be understood that the time of one and one-half hours means that the members during that time shall use every reasonable effort to get glass in proper condition; but where the manager or firm requests them to work said glass previous to the expiration of said time by paying them for ware properly made from said glass, they shall be permitted to do so.

SEC. 29. When a machine is being operated on two or more kinds of bottles or jars, and the weights or prices are different, said shops shall receive pay for the highest priced bottle or jar.

SEC. 30. All ware must be credited to the member within one week after it has been made. All stoppered ware to be credited when counted, and the workers cannot be held responsible for ware after it has been stored or shipped. They must also be credited for ware before it is steamed or washed.

SEC. 31. The right of the manufacturer to hire and discharge employes is acknowledged, and it is under-

stood that when workmen are to be hired, they shall be members of the Glass Bottle Blowers' Association.

SEC. 32. On a machine where cut-offs are used, and but one operator is employed, three operators may be employed to operate two such machines. Two-thirds of the product of each machine shall go to the regular operators. One-third of the product of each machine shall go to the third operator. This shall not be used where there is a three-shift system. Day work shall be at the rate of $5.00 per day for each machine. Two men shall not be allowed to work the machine when there is a member idle competent to fill the place.

SEC. 33. Members are permitted to enter the packing room before starting and after stopping work, on the day or night turn, or during the regular stopping times, for the purpose of inspecting or looking after ware made by their shops, but must not remain in the packing room after such inspection has been made.

SEC. 34. When a blowing apprentice is put to work on a machine, he shall receive apprentice's wages according to machine rules, and he shall be subject to all the rules of the machine department.

SEC. 35. No glass shall be made during the first two weeks in August, 1913.

SEC. 36. A Preliminary Conference for the purpose of considering wage scale for the next season shall be held the first Tuesday in May, and the final conference as soon after the Manufacturers and Blowers have held their annual conventions as necessary arrangements can be made.

Sec. 37. At the Final Conference, held subsequent to the adjournment of the conventions, no questions shall be considered relative to the adoption of new rules or a change in the old ones, a change in the List, or the addition of new bottles to the List, unless notice shall have been given to and by both parties at the preliminary conference.

Sec. 38. Manufacturers and Branches shall notify each other of all bottles or changes intended to be submitted to the May Conference, and the reason for so submitting them, which notice must be in writing. Said written notice shall also be given the President of the Glass Bottle Blowers' Association, and the President of the National Vial and Bottle Association.

INTERPRETATION OF RULES.

Sec. 39. All information wanted in regard to the intention or meaning of the *rules, regulations* and *prices* shall be referred to the President of the Blowers' Organization, whose decision in all such cases shall be binding unless said decision is reversed by the *Joint Wage Preliminary Conference* in case of a protest.

Manufacturers who desire to protest against a decision of the President shall serve notice in writing on the Branch in their locality of their intentions to

protest, and shall also notify the President of both the Manufacturers' and Blowers' Organizations of the protest; which notice shall contain all information necessary for a proper review of the case protested. Said notice shall be served not later than thirty days prior to the first day of the Preliminary Conference.

Protests on decisions made between April 1st and July 31st shall be reviewed at the Final Conference with notice as above stated, to be served not later than August 1st.

No case in protest shall be reviewed by either Conference unless the foregoing has been fully complied with.

Those representing the Manufacturers:

GEORGE W. YOST, Bellaire, Ohio, *Chairman.*
JOHN F. PERRY, Bridgeton, N. J.
G. A. H. SHIDELER, Marion, Ind.
M. W. JACK, Streator, Ill.
C. J. ROOT, Terre Haute, Ind.
J. L. CLYDE, Olean, N. Y.
C. O. STEWART, Zanesville, Ohio.
A. B. GUNDLING, Wheeling, W. Va.
J. J. MEYERS, Glenshaw, Penna.
WILLIAM FRANZEN, Milwaukee, Wis.
JOHN BRANIN, Baltimore, Md.
WILLIAM RICHARDS, Alton, Ill.
L. L. TURNER, Terre Haute, Ind., *Secretary.*

Those representing the Workmen:

D. A. HAYES, *President.*
JOHN A. VOLL, *Vice-President.*
HARRY JENKINS, *Executive Officer.*
P. E. WHELAN, *Executive Officer.*
